If you could have no-fluff motivation, high-energy original humor, and industry-specific customized business content delivered in a single program, what value would that have for your organization?

Garrison helps people make the jump from being great at what they do to developing the qualities it takes to be consistently chosen for the job. He gets them to understand why their products, services, or leadership styles—or those of their competitors—are selected. As he says, “If the world agreed on what’s best, everybody would choose the best and nothing else would be considered. Decision making doesn’t work that way.” His presentations help people become more influential regardless of circumstances.

Garrison has presented to some of the world’s most effective leaders and business developers, from multibillion-dollar manufacturers and national associations to top New York Stock Exchange wire houses. He has a background in manufacturing, telecom, and financial services and toured as a professional stand-up comedian. In his teens, Garrison worked with Magnavox and baseball legend Hank Aaron to promote the world’s first video gaming system, and by age 27 he became the youngest department head in a Fortune 500 company’s history. He researched and designed processes for 38 locations nationwide and developed and marketed products still being sold in 30 countries. He is the author of the Amazon.com bestseller *The REAL Truth about Success*, has contributed weekly to *The Washington Post*, and has coauthored with Stephen Covey. His award-winning success tools receive high praise, but his greatest strength is a magnetic live performance that keeps him in high demand, with more than 600 inquiries and 100 speaking dates per year.

Garrison got more laughs than Jay Leno and David Letterman combined.

The Real Truth about Success: What the Top 1% Do Differently and Why They Won't Tell You

Be prepared to laugh and learn as this research-based keynote reveals how top performers harness the power of their advantages, even when the odds are not in their favor. Business relationship expert and Amazon.com bestselling author Garrison Wynn delivers a high-impact program that answers two monumental questions: How do you get people to do what you want them to do? And how can you get better results from the challenging people you encounter along the way? With an emphasis on what you can actually walk out of the session with and achieve tomorrow, this program shows you how to weather the perfect storm while still looking really good in a raincoat!

Being the Best vs. Being Consistently Chosen

Success is more than being good at what you do; it's about being consistently chosen to do it. Garrison helps people to understand why their products, services, or leadership styles or those of their competitors are selected. People don't necessarily choose what's best; they choose what they are most comfortable with, whether it's the best or not. We've all heard the importance of best practices and superior knowledge, so why aren't the smartest people with the most information always number one in their field? This keynote provides original research on managing expectations and emotions and shows there really is more to success than being the best.

**Making the Most of Difficult Situations
Changing Markets, Changing Times**

This funny, insightful keynote combines relationship building with no-fluff motivation and change to deliver real solutions in uncertain times. Garrison examines the challenges we face and shows how we can laugh at our problems while using them as catalysts for success. This session covers a lot of ground and provides no-cost, easily implemented, proven solutions that your people can use right away.

Getting Great Results: Turning Talent Into Performance

In this keynote, results from the largest management survey ever conducted are combined with real-life management and leadership solutions to get the most from your people, regardless of their skill level. Participants learn to manage their ego-driven top producers, how to listen like leaders and make their people feel heard, how to hire for talent and turn it into top performance, how to create a culture of excellence with their most promising people, and how to help their low performers to fight their way to the middle.

Generations Working Better Together

This extremely informative, entertaining, solutions-based session explores why younger and older people don't see eye to eye and what to do about it in the workplace. From pointers on motivating, managing, and retaining younger employees to ways of preventing older managers from losing their minds, this research-based program shows it's possible for baby boomers and Gen X and Y employees to work well together.
